 F.I.R.S.T. Manager

**TEST COMMENTS:** *Very nice looking plot. The site received some strong wind causing some green snap on a few hybrids. Pollination was very good with ears were filled to the tips with large, deep kernels. Some gray leaf spot was observed. Plants were tall with healthy stalks. Rainfall in this area was about 10 inches in May and June with only about 4 inches in July and August.* Lat: N41.81364, Long: W-92.28846
