**Test Comments:** *Amazing corn on corn tests here. Planting conditions and emergence were very good. Plants were very tall plants with high ear placement. Ears were large with good girth, well pollinated and strong cobs. Stalks were strong and standing very well with good brace roots. Some plants still showed green foliage in spots. Some gray leaf spot was noticed and no weed control issues.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
