Yield & Income Factors: Base Moisture = 15.0% Shrink = 1.3 Drying = \$0.025 Prices: GMO = \$4.00; non-GMO = \$4.00

Test Comments: Here's the way yields are in this area, extreme high to extreme low. It just depends on where the water sat. There have been some pork producers and grain processors that have been offering a premium for grain. This it the year that your normally poorest ground is your best and your normally best ground is the worst.

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
