Test Comments: *This location missed the extreme rains. It still got more than normal but was a benefit. Good final stands. Disease was present but the late season fungicide application kept pressure in check. The difference in products was visible as plants were still fully intact with heights up to 12 feet. J.R. said this is the best crop they have ever had.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
