Test Comments: *This site emerged great, despite being cool most of May, and looked good all season. Timely rains fell all summer long. Plants were tall and standing well at harvest, a light amount of gray leaf spot was present. Ears were long and girthy, with 1/2" of tip die-back. Joe stated that this years crop was as good as last year, both being the best he has ever raised.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
