Test averages and statistics for all 3 replications, including zero yields where lost, are presented to illustrate variability. Test site monthly rainfall totals, in inches, and departure from 30-year average (in parentheses): May 5.7 (+2.2), June 8.9 (+5.1), July 5.4 (+2.0), Aug 2.9 (-0.9), Sep 2.0 (-1.1)*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD (0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
