**Yield & Income Factors:** Base Moisture = 13.0% Shrink = 1.3 Drying = \$0.020 Prices = \$8.50 GMO; \$8.50 non-GMO

**TEST COMMENTS:** Heavy rainfall in May delayed planting, and made for a fair seed bed. Waterhemp overtook this test in July, as no postemergence herbicides were effective in killing them. Not harvested since yield results are compromised by waterhemp presence.

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
