Yield & Income Factors: Base Moisture = 15.0% Shrink = 1.3 Drying = \$0.037 Prices: GMO = \$2.89; non-GMO = \$2.89

Test Comments: *Planting conditions were good and weather was conducive to excellent emergence. At harvest, the only thing that kept this plot from being perfect was having a few weak ear shanks. Plants were tall with large diameter stalks that stood well. Ears were well pollinated, girthy and filled kernels of great depth. Disease pressure was light and no weed escapes at this well drained location.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
