**Test Comments:** *Stands were excellent at this plot and everything was nice and uniform all season long. Eric had some good timely rains and excellent heat degree units to help this plot out. Stalk quality was still strong even at this late harvest date. There was evidence that gray leaf spot and common rust were present on leaves. Any of the ears that were pointed up were starting to develop some mold issues.*

**Test Comments:** *Stands were excellent at this plot and everything was nice and uniform all season long. Eric had some good timely rains and excellent heat degree units to help this plot out. Stalk quality was still strong even at this late harvest date. There was evidence that gray leaf spot and common rust were present on leaves. Any of the ears that were pointed up were starting to develop some mold issues.*
