**Yield & Income Factors:** Base Moisture = 15.0% Shrink = 1.3 Drying = \$0.025 Prices: GMO = \$3.90; non-GMO = \$3.90

**Test Comments:** *Planted on the first day of planting and harvested on close to the last of harvest and it took every day to get this crop finished. Scott noted it was a summer he is glad is over. Rainfall was overwhelming at times and made planting, spraying, small grain harvest and hay making hair pulling. Very little stress from heat and lack of rainfall produced big yields. Overall plot rating is 9 out of 10. (10=best)*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
