TEST COMMENTS: *Kevin Zikmund, our host grower, placed the test in a field that he said has a very rich manure history to it. There was some early season grass weed pressure but Kevin did an excellent job of controlling these weeds. I do not believe they had any lasting effects in the plot. Late season dry weather conditions reduced the top end yield potential of this crop.*

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
