Yield & Income Factors: Base Moisture = 15.0% Shrink = 1.3 Drying = \$0.025 Prices: GMO = \$3.25; non-GMO = \$3.25

Test Comments: *Planting conditions were excellent and provided for some great final stands. Drainage was great on this gradual slope which avoided ponding from the 7.9" that fell during the last 10 days of June. Great fertility and plant health allowed 11 ft plant heights of several hybrids. Pollination conditions were ideal and ears filled to the tips across all products. Harvest stalk quality was beginning to decline.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
