**TEST COMMENTS:** *Wet soil conditions at planting and wet soil conditions at harvest. This year had above average rainfall and made it a challenge to perform any field task. Fall panicum came in late and caused some yield decrease. Overall plot rating is 7 out of 10. (10=best)*

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
