2020 Soybeans Top 30 Harvest Report

Iowa North [IANO] LU VERNE, IA
Bob Plathe, Kossuth County, IA 50560

Early-Season Test	1.7 - 2.1 Day CRM S2020IANO01a
Top 30 of 54	For Gross Income (Sorted by Yield) Average of (3) Replications
PREV. CROP/HERB:	Corn / Acuron Flexi, Impact
SOIL DESCRIPTION:	Kossuth silty clay loam, mod. well drained, non-irrigated
SOIL CONDITION:	very high P, medium K, 5.5 pH, 4.8% OM, 25.9 CEC
TILLAGE/CULTIVATION:	Conventional W/ Fall Till
PEST MANAGEMENT:	Zidua Pro, Roundup Powermax, Warrant Ultra, Section Three
Applied N-P-K (units):	0-0-0
SEEDED - RATE - ROW:	May 7 144.0 /A 30" spacing
HARVESTED - STAND:	Oct 6 128.3 /A

TEST COMMENTS:

Like much of the area, this field dealt with the effects of dry weather through the last half of the season. Soil types that could hold on to precious moisture that fell during May and June were able to help plants endure summer heat and this Kossuth silty clay loam did pretty well, considering the season from 5/1 through 9/15 was 6.7" under the 30-yr average for this field. Three August showers each dropped about 0.5" which was very welcome, however the crop was stressed and overall yields were impacted by moisture shortages.
