HARVESTED - STAND:	Oct 20 32.0 /A

TEST COMMENTS:

Plot was planted in great soil conditions and received a nice rainfall within a couple of days helping to have a nice even emergence. Rainfall was pretty consistent throughout the growing season making for a nice uniform plot. Plant health was still really good at harvest time and everything was standing perfectly. There was some evidence of Tar Spot that moved in late in the growing season. Overall a nice location.
